## Inga Council Nominations.

Saturday, Feb 20th is the day set for nominations to fill the council of the Inga M D made vacant by the expiration of term in three of the six districts. It is set for Duffield at 1 p.m. and the elections will take place on the following Saturday, Feb. 27th.

The councillors going out are—R. P. Shaw, Division 2; B. Tattersall, Div. 3; and R. H. W. T. Division 5, and will put a fly stand for re-election.

## Masquerade Dance!

DUCHOLKE'S HALL  
ON

Friday, March 19:

FOUR PRIZES.

Paramount Orchestra.

ADMISSION \$1.00.

Free Lunch.

## Baumberger-Giese Wedding.

On Saturday, Feb 13, Miss Martha Giese, daughter of Mr and Mrs M Giese of Golden Spike was united in marriage to Mr Peter Baumberger of Garden Valley.

After the ceremony the newlyweds and a host of followers left for the home of the bride's parents for a 2-day celebration where everyone had a good time at dancing, games set with Pete as centre of attraction. The meeting adjourned Sunday evening and Mr and Mrs Baumberger left for their home.

## DANCE!

At your next dance  
Appear your best,  
Bring in your suit  
And have it pressed.

PAUL WERNER,

## LOCAL NEWS.

Yesterday was Ash Wednesday, the beginning of Lent.

Mr Paul Meredith left Saturday on a trip to the coast.

Mr E Gals left on Sunday for Chicago to attend the funeral of his mother, recently deceased.

Mr and Mrs D L Barker and family of Jasper are down visiting with Mr and Mrs D M Barker of Carvel.

Messrs Hal Laird and Lord Stony's two popular sports, left Tuesday on an extended visit to Detroit, Toronto and other eastern points.

The new Stony Plain Town Council held its initiation meeting in the Town hall last Thursday evening.

The annual meeting of the Liberal Association of this constituency will be held in Ducholke's on Wednesday, Feb 24th at 2:30 p.m. A big banquet will be held in the evening.

The Stony Plain W. I. will hold a card party at the home of Mrs R M Oatway on Friday, February 19th, at 8 p.m. Everybody Welcome. Silver Collection.

The dance in Ducholke's hall last night was up to the usual standard with the exception of the crowd, only about a dozen attending.

A Masquerade dance will be held in the Holborn hall tomorrow night.

The Edmonton Spring Show will be held this year April 5-10. Entries for the bull sale close on March 2d and the Show Classes entries close on March 19.

## Govt News Briefs.

The Alberta Wheat Pool has now 36,259 members according to a statement from the Head office. It is announced that the three prairie pools are planning the erection of a terminal elevator at Vancouver.

Plans are being made for an air passenger service between Edmonton and Calgary for the coming summer. That will mean more "high fliers."

So mild has been the weather in Alberta that it has possible to start Spring work on the land at several points in the Calgary and Lethbridge districts.

The convention of the Fairs Association was held in Edmonton last week and which proved to be the best ever held by them. Plans were discussed which would link up the Rural Fairs with the school fairs.

The final session of the Alberta Progressive Legislature opened in Edmonton last Thursday with the newly-appointed Lieut Governor of Alberta, Wm Egbert, present.

## Start the Children Right

In this column last week some emphasis was laid on the importance and value of developing habits of thrift, and in the concluding paragraphs parents were urged to encourage their children to start a savings account early in life, and even to provide the nucleus of such an account before the child was old enough to think and act for itself.

The writer's attention has since then been drawn to a report on "The Penny Bank of Ontario," a system created for the purpose of encouraging thrift on the part of school children in that Province, and thereby teaching in a concrete way the wisdom and great value of thrift and the habit of saving. The subject is surely important enough to warrant a further reference.

It is the aim of The Penny Bank of Ontario to provide for every child at school an opportunity on a stated day of each week to put small coins in a safe place and to prove to him or her how quickly a series of small amounts builds into a comfortable balance. From the report, to which reference has been made, it is learned that Penny Bank accounts in the public schools of Toronto now number 46,253, while the average school attendance is about 85,000. In other words, 78 per cent. of the children are taking advantage of the service offered.

Some rather interesting facts are disclosed through this Penny Bank scheme, and two questions asked, based on the weekly reports, are: "Are the children of well-to-do parents, gaining a just notion of the value of money?" "Is there a tendency among them to regard copper, nickels and ten-cent pieces as mere chicken-feed, as contemptible coins, as unworthy fractions of that noble unit, the Dollar?"

Analyzing the deposits made in Toronto schools in a given week, it was found that in the poorer districts the services of the Penny Bank are accepted and appreciated to a far greater extent than in the more well-to-do districts. In one school in the heart of the poorest district, 45 per cent. of the children present on October 27 last made deposits. On that same day in one school in one of the richest districts only 13 per cent. of the pupils were depositors, while at another school in a rich district the figure was 11 per cent. "Through-out the eighty-eight public schools in Toronto the average of deposits on October 27 was 21 per cent. of the pupils present."

It may be true, and probably is, that many of the children in the better residential districts have savings accounts in the chartered banks. If so, the boy or girl is not likely to make a journey to the bank to deposit 25 or even 50 cents. He or she is more likely to wait until a dollar or more is accumulated, and meanwhile the small coins gradually "fritter away."

As a writer in a Toronto paper points out, in commenting on this Penny Bank scheme, the training thus afforded is just as valuable for the child of a prosperous home as for the boys or girls of the poorest district. It may be even more valuable, since the son or daughter of the rich man is likely some time to have the handling of large sums of money. They cannot manage them wisely until they know the exact value of a nickel, unless they have learned the importance of small sums. It is the untrained children of the rich who blossom into wastrels.

Thrift is a habit, a character-forming habit. The boy or girl who deposits five cents every week without exception gets more benefit than another who deposits a dollar at infrequent and irregular intervals. In the business of life, pay-day comes once a week, or once a month. The man or woman who banks a stated amount, large or small, on each payday is on the road to success, and the boy or girl who makes this a habit early in life is almost certain to succeed.

Here in the West, the same principle is being applied in some schools by many individual families. The boys or girls are given a pig, a calf, a setting of eggs, for their very own on the understanding that they look after them, and the increase and profits are theirs. In this way the boys and girls not only develop a greater love for animals and learn invaluable lessons as to their proper care and feeding, but their interest in the farm home and agricultural pursuits generally is maintained and intensified. And if the profits from the handling of their own poultry or livestock are carefully placed in a savings account, or are used to add to their holdings, it will not be many years before these boys and girls accumulate a respectable bank account, which will prove a further incentive to careful management, and a training through actual experience which will prove of undoubted value to them throughout life.

### Saskatchewan Livestock Officers

G. H. Learmonth, of Regina, was elected president of the Saskatchewan Livestock board at the board's meeting at Saskatoon. James Brown, of Neudorf, was elected vice-president. J. O. Robertson re-elected secretary-treasurer. Robert Clinton, Regina, for several years honorary president, was also re-elected. Evanston Hargrove, of Belle Plaine, and James Brown being named directors-at-large.

### King Dilek Shingled Hair

They say that the most conservative thing in the world is Britain's royal court. Queen Victoria would never suffer innovations in dress, and that was one of her reasons for appreciating Queen Alexandra, who, in her exquisite taste, never allowed herself to be swayed by fashion. In the same way, King George never tolerates shingled hair among the ladies around his wife.

## Children Cry for

**Fletcher's  
CASTORIA**

### MOTHER—Fletcher's

Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

### In Accordance With Old Danish Tradition

Coffin of Queen Alexandra Still Exposed to View

That the coffin containing the remains of Queen Alexandra, is lying uninterred and exposed to view before the altar in the Albert Memorial Chapel at Windsor, is strictly in accordance with Danish tradition, has, apparently, passed without comment in the newspapers. In the case of Queen Alexandra, its position was not unprecedented, as it is only a temporary character; but in Roskilde Cathedral, the Westminster Abbey of Denmark, where almost all the Danish sovereigns, from Harold I, who died in 982 A.D., to King Frederik VIII, who died in 1912, are buried, only the later kings reigned in side chapels, quite uncovered and open to inspection by visitors.

### KEEPING HEALTHY DURING WINTER

Colds, Influenza and Like Troubles Can be Avoided

Have you noticed that some people enjoy good health through the most trying winters, while others succumb to colds or influenza at every touch of wintry conditions, or are attacked by rheumatism, or are laid up by the flu? The answer is to be found in the condition of the blood. If it is rich and pure, the system is able to resist disease. But let the blood become impoverished and the way is made clear for disease to enter the system.

The common sense way to avoid colds and influenza is to keep a plentiful supply of rich red blood in your veins. Dr. Williams' Pink Pills have achieved world-wide fame for their remarkable blood-enriching powers. The new blood which comes from the use of Dr. Williams' Pink Pills tones up the whole system and so helps the body to resist winter ills.

If the system has already been weakened by colds, influenza or other winter ailments, then Dr. Williams' Pink Pills are the safest medicine for rebuilding the blood and strengthening the body. An example of the value of these pills is given by Mrs. R. O. Stromberg, Cobalt, Ont., who says:—

"I had a very severe attack of grippe or influenza, which confined me to my bed for a week. On getting up again I did not recover my usual strength. I was very weak, had a severe pain in my head, and a constant backache. I had to get a doctor to do my work for me as I had neither the strength nor the energy to do anything. At this stage I received the great benefit I had through Dr. Williams' Pink Pills in ghrihood. I began taking this medicine, and soon my strength began to return. I am now able to do all my own work again, and take care of my baby. I am very grateful for what the pills have done for me, and hope my experience will be of benefit to some other sufferer. If you need a blood-building tonic begin taking Dr. Williams' Pink Pills today. Send for a box of the pills, or sent by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont."

### North Pole Flight

Aviators to Carry Provisions to Last a Year

Prospects of a year's walk back to civilization should his Plover aeroplane "go dead" while on its flight across the North Pole, are not worrying Carl Ben Eklund, University of North Dakota graduate, who is to pilot the plane on the proposed Wilkins expedition flight.

"We will be in the air about 23 hours before we reach Spitzbergen, according to our computations, but we will carry enough concentrated foods to last us a year should we have to walk back from somewhere in that unexplored land," Eklund said as he left for Point Barrow, Alaska, to join the expedition.

The principal object of the expedition is to ascertain whether or not there is undiscovered land north of Point Barrow, "America's farthest north."

"When the hop-off comes from Point Barrow north," Eklund said, "the captain, George Wilkins, of the expedition, has left orders that in case we do not show up no relief expedition is to be sent out for at least two years."

Minard's Liniment for frost-bites

England Thriftiest Town  
Plymouth claims to be the thriftiest town in England. Its people have purchased 1,675,000 savings certificates in four years, an average of two per head per year, at a cost of 10 shillings and a half for the rest of the country.

### Will Unveil Effigy Of King Edward

Public Will See Figure of Queen Alexandra at Same Time

When the recumbent effigy of King Edward in St. George's Chapel, Windsor, is formally unveiled, the effigy of his Queen will be revealed to the public at the same time.

The figure of King Edward has been covered up with a flag for several years. The slab for the companion figure of Queen Alexandra adjoins it. "It is impossible to say when the unveiling will take place," the sculptor, Sir Bertram Mackennel, said, when interviewed. "For five years repairs have been in progress to the roof of St. George's Chapel, and until the renovations are complete it will be impossible to unveil the figures for fear of injury."

Few people know that at the time that Sir Bertram executed his figure of King Edward for St. George's Chapel he designed a similar figure of the Queen under the personal supervision of Queen Alexandra herself. It shows her in her coronation robes.

**Freedom from Asthma.** Asthma is one of the most distressing troubles, sudden in its attack and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

Two of the greatest inventions of modern times, the telephone and typewriter, made their first appearance at the centennial exposition in Philadelphia in 1876.

**A Remedy for Earache.**—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

"What college does your boy attend?"

"Well, his towels are marked Pullman, Santa Fe and Ritz, so I really don't know."

### Says It's Hereditary

Convinced By Experiment Cancer Is Not a Germ Disease

After experimenting 16 years with more than 50,000 mice, Miss Maude Slye, associate professor at the University of Chicago, is convinced that cancer is not a germ disease, but is hereditary, and that resistance as well as susceptibility to the disease may be inherited.

Her experiments indicate that avoiding chronic irritation of susceptible tissues will do much toward avoiding cancer.

### DON'T COUGH!

Take a few drops of Minard's in syrup or molasses. Gives quick relief.

### Judicial Robes Costly

The magnificent robes of black satin damask, heavily embroidered with gold thread, which legal etiquette compels the higher judicial officials in England to wear on state occasions, now cost nearly \$2,000 apiece.

**Miller's Worm Powders** will purge the stomach and intestines of worms so effectively and so easily and painlessly that the most delicate stomach will not feel any inconvenience from their action. They recommend themselves to mothers as a preparation that will restore strength and vigor to their children and protect them from the debilitating effects which result from the deprivations of worms.

### Heat Rays to Destroy Planes

Prof. A. N. Boyka, of the Russian magnetic observatory, announces the invention of an apparatus which, by means of the reflection of powerful rays of heat, will destroy aeroplanes, or dirigibles, while they are in flight. This appliance, he says, will project concentrated heat waves a distance of 25 miles, losing only one-third of their previous strength.

# Shows How To Control Or Extinguish Incipient Fires That Threaten The Farm Home

During the past few weeks there would seem to have been almost an epidemic of fires in the smaller homes, and more regrettable still, these fires have resulted in an unusual number of deaths, particularly of children, and the natural resources intelligence service of the department of the interior at Ottawa. These young lives are being cut off largely as the result of carelessness, or neglect in taking reasonable precautions. The use of coal oil or gasoline to light or force fires every winter takes its heavy toll of lives, while overheated stoves and furnaces are accountable for a large share of the fire loss among Canadian homes.

Every precaution should be taken against fire. Careful examination should be made that no fire dangers exist, that all stoves and chimneys are safe and whole, that lamps and lanterns are not left where small children may upset them, that matches, the cause of so many fires that result in the deaths of children, are kept beyond their reach, and that sparks cannot escape to the floor surrounding the stove. When fire does occur, however, it is of the utmost importance that a cool head be maintained. Getting excited only delays adopting means to fight the fire, and in many cases the delay thus caused permits the fire to get beyond control. There is an old saying that "all fires are the same size at the start," but favorable conditions very quickly show their effect. A few simple precautions will be of much value in extinguishing a fire in its incipient stages, and the following should be so impressed upon the mind that they will be almost automatically adopted when occasion arises:

The first thing to get is the ladder, so one can quickly carry water up to put upon the fire started in the shutters of the roof by sparks. It is also a good plan to have a bucket of water or a fire extinguisher always ready for use in the attic.

In farmhouse kitchens there should always be a bucket, kept full of water, ready for use to put out a starting fire. In winter salt is put in the water in the bucket so it cannot freeze. Fires resulting from grease or fat boiling over on the stove should not have water thrown on them, as that spreads the blaze. Use rather, beating soda, salt or flour to smother it.

Water takes more heat away from burning material than any other fluid or substance. Things other than water used to put out a fire either smother it by keeping air from it, or make a gas which pushes the air away. If the blaze is just starting, throw water on the material that is burning, not at the blaze. One bucket of water will do more good if thrown on by the hand or by a broom than if dashed on at once.

Small fires may be smothered with a rug or blanket or beaten out with a wet broom. Salt or sulphur should be used to put out fires in the stovepipe or chimney.

A gasoline fire can be put out by smothering it with wet rags, wooden cloth, sand, ashes, or flour. If water is used, put it on in large quantities; a small amount spreads the flame.

Do not throw water on the flames which start from kerosene oil, as it tends to spread the blaze. Smother the flames with a carpet, quilt or heavy clothing. Do not leave a door open when you run out to get an alarm. If the doors and windows are closed when the fire starts, one can usually get help in time to put it out while it is only in one room.

**Australian Butter For Canada**  
The Canadian-Australian Inter-Nikars arrived at Vancouver, Feb. 9, with the first shipment of butter imported to Canada of Australian butter, a result of the Canadian-Australian trade treaty. The vessel brought 15,000 cases of the Australian product and 6,000 cases from New Zealand. Two thousand cases were landed in Victoria. The bulk of the Australian butter was destined for Toronto.

Every once in a while, after a fallow has forgotten there is such a thing, somebody drives by with a horse and buggy.

W. N. U. 1816

## The Wealth Of Canada

Staggering When Compared to Population Says Sir Henry Thornton.  
Sir Henry Thornton, head of Canada's National Railways, and hailed as Canada's greatest public agent, declared that the wealth of Canada is staggering when compared to her population, and he furnished the following figures of Canada's part in world production to support his contention:  
Nickel—Eighty-nine per cent.  
Asbestos—Eighty-eight per cent.  
Cobalt—Eighty-five per cent.  
Lumber—Twenty-five per cent.  
Cured Fish—Twenty per cent.  
Silver—Ten per cent.  
Gold—Eighteen per cent.  
Wheat—Twelve per cent.  
Gold—Seven per cent.—Simcoe Reformer.

## The Wheat Board Surplus

Saskatchewan is Putting the Money to Excellent Use.  
Excellent proposals for the use of the \$244,500 which fell to this province as its share of the wheat board surplus have been presented to the legislature by its committee on agriculture. The committee is in accord with Premier Bonaparte's proposal that the money should be invested and the interest put to work for agriculture forever. Its plan is to constitute a research fund, with the dean of the agricultural college, the minister of agriculture and the president of the university board of governors as members. It is suggested that they be empowered to spend the interest on \$244,000 in research into farm problems, particularly such and marketing, and on research for better students of agriculture.—Saskatoon Star.

## Napoleon's Wooden Horse

Probably the most expensive toy ever bought was a broken-nosed wooden horse that has belonged to Napoleon Bonaparte, and which was sold in Paris some years ago for \$2,400.

# Claim Made That Canada Has Lower Per Capita Taxation Than U. S. or Great Britain

## Seeking Help Of Scientists

New Zealand Wants To Be Great Britain of South.  
New Zealand, which aspires to be the Great Britain of the southern hemisphere, is setting to work to develop her manufactures on scientific lines, and has applied to those distinguished scientists, Sir Ernest Rutherford and Sir Frank Heath, for assistance and advice. With her Alpine mountains and torrents, New Zealand will probably be able to develop hydro-electric power on a great scale. Then she will need skilled labor, and be able to attract the British artisan and town laborer. The dominions will not get themselves filled up rapidly if they rely on rural immigration alone.

The conviction that doctors are quicker doesn't signify anything except that you are, in good health.

From authoritative figures issued by the Canadian Tax Conference under the direction of Dr. Horace I. Brittain, it appears that Canada has a lower per capita total of federal, provincial and municipal taxes than the United States, Australia or Great Britain. The percentage of total taxes to net production is smaller here than in Great Britain or Australia, but larger than in the United States. According to these figures, which are for 1925, Canada's total per capita tax is \$66.11, that of the States \$67.28, of Australia \$69.88, and of Great Britain \$87.12. The percentage of total taxes to net production in Canada is 16.7, in the United States 17.5, in Britain 24.9, and in the United States 15.1.

The total amount of taxes raised in Canada during the year in question was \$608,487,727, while Australia raised \$400,517,987, Britain \$4,256,312,252, and the United States \$7,287,938,298. It is an interesting fact that while 46.3 per cent. of Australia's Commonwealth taxation was derived from customs duties and 35.5 per cent. of the Dominion's, the United States derived only 17.5 per cent. from this source, and Great Britain under so-called free trade realized 16.7 per cent.

It is evident from the figures quoted that, although Canada has the lowest per capita tax of the four countries, she paid 6.5 per cent. more of her annual net production to government in taxes than does the United States, thus leaving that much less of her income for the individual to spend as he desires. On the other hand, the Canadian has an advantage in this connection of 1.9 per cent. over the Australian, and 9.2 per cent. over the Britisher. While the per capita total of local taxation, that is, provincial or state and municipal, is nearly the same for Canada and Australia, the former derives the greater portion through municipal channels and the latter through state channels.

## Intensive Wheat and Stock Raising Vacant Space in Manitoba to Be Filled Up With Settlers

Many tracts of Manitoba lands which hitherto have been only partly farmed will be filled up with settlers this spring who will engage in intensive wheat and stock raising, according to information secured from E. W. Russell, of the Canada colonization board. Deals are on now, Mr. Russell stated, concerning numerous parcels of land, most of it privately owned, where the owner is willing to dispose of part or all of his acreage.

Naturally, the Hebrideans on the prairie are very homesick for the sea. They have always lived in sight of it, felt its tang, know its tempers. However, in Canada, they find great compensation in their work, even if they do long for their sea-girl island.

The Hebrideans about Exeter are settled on what is known as "isolated farms," that is farms surrounded by neighbors of other nationalities. In place of in community settlements. There they are assisted and advised by experienced farmers and given words of cheer when the ways of this new land seem strange and inhospitable.

A short distance from Red Deer, in the vicinity of the former industrial school, are the group of twelve cottages, erected by the Scottish Immigration Society. They are for the purpose of giving temporary accommodation to the Hebrideans while they are endeavoring to become located on farms. At present these houses are occupied, generally, by widows and their families. Work is secured for the children who are old enough to go out to service. The younger children attend school in one of the industrial buildings.

A Gaelic teacher has been secured for them, that is one that can talk Gaelic but is a graduated Canadian teacher and follows the Canadian system in her work.

Western Canada has prospect of a new industry being developed in the immigration of these people. Many of the women have a knowledge of knitting, carding and homespun. When they are later assembled in groups, looms will be put up and the industry encouraged. This year some of the women of Harris homespun trend was made by these Hebridean women and sold to the Hudson's Bay Company.

The request for fish eggs was made to the Dominion Government by Sir Charles Elliot, British ambassador at Tokyo.

The precious cargo is packed in a specially constructed tinplate box and has been entrusted to the personal care of the ship's chief until it reaches Yokohama.

## A DAY WITH THE HEBRIDEANS

The Galbraith Home with Fluffy Maudie Curtains

A Hebridean Family 1925

Mrs. Nell MacLean

The MacLean Farm where 100 acres of Grain was Threshed in 1925

The Hebrideans are rapidly carving out new homes in Western Canada. In one of their settlements, at Exeter, near Red Deer, Alberta, the fact is impressed that far from their native land, they have settled down to the new conditions with a determination to succeed. It is probably in the women, the Hebridean matrons, that the interest lies. Their very evident pride in their culinary accomplishments assures well for the best interests of their families in this new land.

"I got a book and learned how to make cakes," said Mrs. Nell MacLean, one of the Hebridean matrons. "A woman, one of my neighbors, taught me how to make bread and I bake twice a week. I never saw bread before till I came to Canada, but we all like it better than bannocks now."

Mr. and Mrs. Nell MacLean, with eight children, live on their new farm of 160 acres, near Exeter. They have been settled there for two years and built an addition to a one-roomed house that was on the place. This year they threshed 100 acres of grain. Mr. MacLean's mother, known to the family as "Granny," with two of his sisters, live in Red Deer. One of the girls who had some years of experience in service in the Old Country, is employed here as a housekeeper, at seventy dollars a month. Six of the eight MacLean children attend school in the district of their farm and Mrs. MacLean states that they are all very fond of their studies and "get lots of stars at school." "At home they did not like the master and would cry when I made them go to school; here they holler if they have to stay at home."

Mrs. MacLean's husband was a hatter and fisherman in the Hebrides. "He was always away," she said, "and it is good to have him at home on the farm. We feel so much more settled. About eight years ago we bought a small croft of 25 acres, on the island and kept two cows. I did the work while my husband was at sea. I worked with a spade from dawn till dusk, so very hard, yet we

could not make any money and could not grow enough to feed ourselves. We finally came to Canada penniless. How I wish we had come here, when we thought that croft and we would be comfortable today. Father McDonald told us of the chances in Canada. We just left everything and came with his party. I was always proud of Father McDonald for bringing me out here. It is the only thing I can do for him is to pray that God will take care of him for doing so much for us."

"Have my garden," she continued, "I buy very little from the store. I canned peas, beans, carrots, peas, and she exhibited her winter stores with great pride. "I canned peaches and plums too."

There was a flock of promising turkeys in the yard. When asked if she would have a turkey for Christmas, her face lighted up. "Oh, yes," she said. "We'll have a turkey and we had one last year, and I sent one to 'Granny' in Red Deer. That is more than I was ever able to do at home."

"Oh, yes," we are gaining all the time. I have brought my two brothers out since we came. They are so delighted that they are able to send for them. They are working at threshing now, putting all their money in the bank and will buy farms next spring."

Mr. and Mrs. Roderick Galbraith, from the Hebrides, have a pleasant little cottage with fluffy maulie curtains at the windows. They have finished threshing a very good crop and have quite a lot of stock and some fine horses.

A finer situation for a house and a more pleasing outlook could not be found than that of Mr. and Mrs. Roderick Galbraith's farm-home, near Exeter, on the Red Deer River. The small hill is tree-covered. It has thick poplars and several straight deciduous trees. In summer, when the poplars are in leaf, the house is in the heart of a little sun-drenched forest that is

gay and musical with the song of the birds. "It is just a chorus most of the time," said Mrs. Gillis, "and the trees make it so cool. If I just had a view of the sea occasionally, instead of the prairie, this place would be just right." Mr. and Mrs. Gillis are from the island of Barra and have three young children.

Naturally, the Hebrideans on the prairie are very homesick for the sea. They have always lived in sight of it, felt its tang, know its tempers. However, in Canada, they find great compensation in their work, even if they do long for their sea-girl island.

The Hebrideans about Exeter are settled on what is known as "isolated farms," that is farms surrounded by neighbors of other nationalities. In place of in community settlements. There they are assisted and advised by experienced farmers and given words of cheer when the ways of this new land seem strange and inhospitable.

A short distance from Red Deer, in the vicinity of the former industrial school, are the group of twelve cottages, erected by the Scottish Immigration Society. They are for the purpose of giving temporary accommodation to the Hebrideans while they are endeavoring to become located on farms. At present these houses are occupied, generally, by widows and their families. Work is secured for the children who are old enough to go out to service. The younger children attend school in one of the industrial buildings.

### WORLD HAPPENINGS BRIEFLY TOLD

Countess Maria Rentsau, only daughter of Bismarck, the Iron Chancellor, died at Kiel, Germany, aged 77.

The funeral of the late Count T. Kato, former premier, who died in Tokyo, took place with Buddhist rites. The body was cremated.

Those who ride in taxicabs or horse cabs and refuse to pay their fares face all sentences under the provisions of a bill adopted by the French Chamber of Deputies.

King Boris, of Bulgaria, in celebration of his thirty-first birthday, commuted the death penalty against ten persons accused of plotting against the state.

A delicious fruit, hitherto unknown to the civilized world, has been discovered in the Tres Marias Islands, off the west coast of Mexico. The fruit somewhat resembles the ordinary olive in size and color.

By royal decree there are to be Sunday meetings throughout Spain at which city officials must expound to adults of both sexes the principles of citizenship, public health and other matters.

Creation of a royal Indian navy as a combatant force and reconstruction of the Indian mercantile marine were announced by the retreating viceroy, Lord Reading, to the council of state at Delhi.

The material value of a glimpse of the sun in London was \$150. A group of Londoners, tired of the gloomy weather, went to the Croydon Air-drome. A meteorologist expressed the opinion that the cloud bank was not more than a mile deep. They rented an aeroplane and sunshine, in unmitigated brilliancy, was found at 6,000 feet.

### Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous inhalants will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It is because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oil preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 25 cent bottle from your dealer to-day.

**New Cause For Ex-Kaiser Hate**  
A book about the ex-Kaiser, by Emil Ludwig, just published in Germany, finds a new cause for the War Lord's hatred of Britain. As is generally known, the ex-Kaiser has been afflicted from birth with paralysis of the left arm. This, according to the book, he attributed to the fact that at his birth his mother was under the care of a British physician. For this deformity he never forgave either his mother or the physician whom she brought over from London to attend her—Glasgow Herald.

### Her Heart Palpitated She Had Fainting Spells

Mrs. J. Wilson, Port George, N.S., writes: "I suffered from palpitation of the heart and fainting spells, and, at times, I could not be left alone a moment."

My trouble was caused from over-work and worry, having been left alone with a large family.

I had tried everything without any relief, but I know, to-day, that I would have been a nervous wreck but for your wonderful

### No Longer National Symbol

The great American apple pie is no longer a national symbol, if a recent pie contest held in Washington Valley, N.J., is a criterion. With a judge, lawyer, merchant, millionaire and policeman acting as judges, the housewives of the district presented every known pie for judgment, and when the awards were announced, not one prize had been given to the maker of an apple pie. First prize went to the creator of a creamy coconut pie.

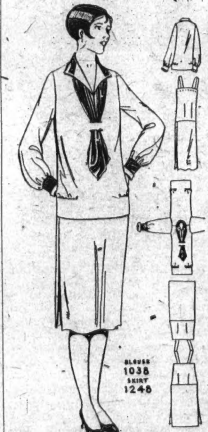

### "DIAMOND-DYES" COLOR THINGS NEW

Just Dip To Tint or Boil  
to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades of dye rich, permanent colors in linens, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Try Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Paris Sanctions Straight Lines in  
Jumper Costumes

Made two-piece fashion this jumper costume is smart for sports or business wear, with its convertible collar and, of course, long sleeves. The long tie—made of material to match the collar and cuffs—passing through a slot seam contributes a smart note. The skirt is joined to a body lining, and an inverted plait at each side seam affords the fashionable flare. The blouse, No. 1038, in its sizes 34, 36, 38, 40 and 42 inches bust. Size 36 bust requires 2 1/4 yards of 36 or 40-inch material. The skirt, No. 1245, in its sizes 34, 36, 38, 40, 42 and 44 inches bust. Size 36 bust requires 1 1/4 yards 36 or 40-inch material, with 3/4 yard lining for bodice top. Price 20 cents each pattern.

Every woman's desire is to achieve that smart, different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style centers and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

### ON THE AIR

What is Doing in the World of Radio

If he listens through one programme instead of jumping from station to station, he has had the set at least a year.

Request numbers on the radio would be all right if it were possible to get any action by requesting them to stop.

With all the popularity that radio has received in this country and in Great Britain, South Africa and Australia won't have it. Broadcasting has been attempted in those countries, but given up for lack of public interest.

It has been held that broadcasting station operators cannot possibly interfere with distress signals and for that reason they will not be required to keep silent in the future when an SOS call is heard. For this reason station operators will not be required to know code in the future.

### She Took Them Twenty Years Ago

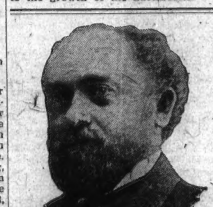

So Says Mrs. A. Demers of Dodd's Kidney Pills

She Had Suffered From Lumbago and Indigestion and Found Relief in Dodd's Kidney Pills. "I started taking Dodd's Kidney Pills. After three months I noticed a great change and at the end of the year had no pains at all. Since that time, if I feel a pain or even a tiredness in my back I take Dodd's Kidney Pills and get better. I highly recommend your pills which should be taken continually until relieved."

Dodd's Kidney Pills make healthy kidneys. Healthy kidneys strain all the impurities, all the poison out of the blood. They are the greatest of all tonics. Give them a trial at once. They can be obtained from all druggists.

### Telephones In Canada

In 1911 there were only 306,000 telephones in Canada. By 1921 there were 500,000 phones, and at the end of 1924 there were 1,072,450 telephones in the Dominion. The increase in the number using telephones ranks next to the growth of the automobile.

### WELL-MERITED SUCCESS

A distinguished citizen, honored politically and professionally, Dr. R. V. Pierce, whose picture appears above, made a successful few have equalled. His pure, herbal remedies which have stood the test for many years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a blood medicine and stomach alterative. It clears the skin, beautifies it, increases the blood supply and the circulation, and rashes and eruptions vanish quickly. It keeps the skin deep and good blood is beneath both. For your blood to be good, your stomach must be in condition, your liver active. This Discovery Fooded Pierce's puts you in fine condition, with all the organs active. Ask your nearest druggist for Doctor Pierce's Golden Medical Discovery, in tablet or liquid form, or send 30c coin for trial package of tablets to Dr. Pierce's Laboratory in Bridgeport, Ontario.

### SUNDAY SCHOOL LESSON

FEBRUARY 21

JESUS RAISES LAZARUS FROM THE DEAD

Golden Text: I am the resurrection and the life; he that believeth on Me, though he die, yet shall he live. John 11:25.  
Lesson: John 11:1 to 12:11.  
Devotional Reading: I. Cor. 15:50-55.

#### Explanations and Comments

The Sisters at Bethany and for Jesus-verse 13. What John tells us in regard to the friendship of Jesus for the little family at Bethany, Lazarus and Martha and Mary, gives us a beautiful insight into his tender and loving heart. What beautiful trust lies in the few words which the sisters sent to Jesus when their brother fell ill—"He whom thou lovest is sick!" How can we remain long in such anxiety when we have such a Friend as thou art? They seem to say: "They do not send word that He must come at once. They make no claim upon Him. They simply say the matter in His hands. That is final."

They asked Jesus to come and change things that needed changing. I can think of no better dedication of prayer than that. They sent for the Master—which was the kindest thing they ever did or anybody can do, anywhere, at any time, under any circumstances. Prayer is not saying words; it is asking and expecting that the Master will come and change things, and that He will begin in you" (Dr. E. B. Gordon).

#### Lumber In Northern Alberta

An estimate of 19,000,000 feet B.M. has been made of the lumber cut during 1924 by five companies located on the Edmonton, Dunsmuir and British Columbia Railway. There are a number of smaller operators who have failed to send in reports of their estimated cuts for the present season, but the total cut of the territory served by this line is expected to run well over the 20,000,000 feet mark.

A word to the wise may be sufficient, but the policeman frequently has to use a club on the otherwise.

## MOVEMENT OF WESTERN GRAIN REPORTED SLOW

Fort William.—Following is the report of E. A. Ureel, statistician to the board of grain commissioners on the movement of western grain crops for January, 1928.

"Owing to the comparatively small quantities of wheat being imported by European countries from North America, the disposal of the Canadian surplus has been taking place during the past few weeks at a rate very much below what was expected."

"From a statistical standpoint authorities are agreed that available supplies of wheat in exporting countries only exceed the estimated normal requirements of importing countries by a small margin. Economic conditions in European countries, however, indicate home-grown supplies will be utilized to the extent that imports will be cut down to absolute necessity only. Rye is also being used more extensively as bread grain. Another factor which exerts a market influence against the exporting of wheat is the fact that the price at which native supplies are available to mills in some countries is far below that which would have to be paid for imported grain."

"Until conditions change it is hardly to be expected that Canada's surplus can be disposed of very rapidly. In the meantime, by the end of January, upward of 28,000,000 bushels of wheat still remained in store at lower lake and Atlantic coast ports. Fort William and Fort Arthur elevators were full and interior public elevators rapidly filling. Vancouver, with ample ocean tonnage available, is handling almost forty per cent. of the total North American grain export at present and is only prevented by lack of demand from shipping far more. Oriental purchases accounted for a large proportion of Vancouver shipments until the last few weeks, when shipments to Europe increased substantially. From present indications the volume handled through Vancouver this season will exceed all previous records."

"The volume of movement to terminal points in the western grain inspection division, although far below December, is much in excess of a year ago. During the month, 20,938 cars of all grain passed inspection, as compared to 56,718 in December and 12,990 a year ago. The proportion of grain grading 'no grade' tough or damp, still continues in excess of 50 per cent. to the total."

## Hopes Membership Will Be Retained

Government Anxious To Avoid Break With Pacific Cable Board

Ottawa.—Negotiations are still pending between Hon. Charles Murphy, postmaster-general, and the other members of the Pacific cable board. It is learned here that it is the hope of the government to retain Canada's membership on the board. Hon. Ernest Lapointe, leader of the government, has said that he has "every hope that they will come to an understanding."

It is expected that there will be developments in the case before very long. Mr. Lapointe promised in the house a few days ago that he would communicate the wish of Sir George Perley to the postmaster-general that nothing be done until the committee has had an opportunity to understand and discuss the entire question. The total contribution of the Canadian Government from 1902 to 1916 on account amounted to \$964,258. During the past two years there has been no contribution by the Canadian Government because the operation of the board showed a surplus.

It is probable that the matter will be discussed in the House of Commons and the details of the difficulties between the government and the cable board will be made known.

"Red" Officials Jailed  
Leningrad.—Twenty-nine officials of the state trust for massed production of merchandise were convicted of embezzlement of government funds and other offences. They received sentences of imprisonment ranging from one year to ten years.

W. N. U. 1919

## Wheat Pool Offer

Saskatchewan Wheat Pool To Submit Offer to Elevator Company  
Regina.—The Saskatchewan Co-operative Wheat Producers, Ltd., and the Saskatchewan Co-operative Elevator Co., Ltd., have jointly issued the following statement for the benefit of the shareholders of both organizations:

"Following a series of conferences between the directors of the Saskatchewan Co-operative Elevator Company, Ltd., and the Saskatchewan Wheat Pool covering the last few weeks, at which details of a proposal to purchase the elevator company's elevator system were discussed by the two bodies, the pool board have completed an offer to be submitted to the elevator company."

"Before the offer is finally submitted to the elevator company, it is the intention of the pool board to submit same to a special meeting of pool delegates for their consideration and ratification. This meeting has been called to be held in Regina on Wednesday, February 17, at 10 a.m."

"Every effort has been made to advance the negotiations sufficiently to enable the 'pool' special meeting to be held within the limit of time stated in the resolution passed at the annual meeting. This has been found to be impossible, but notices calling a special meeting of the 'Co-op' delegates together with information concerning the matters involved, will be sent out immediately the terms of the pool offer have been definitely submitted to the 'Co-op.' Recent amendments to the 'Co-op' Act of Incorporation require that 30 days' notice of any special meeting be given to the shareholders."

## Jap Teachers Will Be Closely Watched

Must Conform to Canadian Rules Says B.C. Minister of Education

Victoria.—Movement of four female Japanese school teachers, who arrived in British Columbia recently, will be closely watched by the department of education, Hon. J. D. MacLean, minister of education, announced. He added that he knew nothing about the teachers' plans except what he has seen in the newspaper reports, which said they were going to Ocean Falls and Mission City to teach Japanese public school pupils after regular school hours.

"We cannot prevent the Japanese from establishing schools of their own," Dr. MacLean explained. "If such schools are established, however, they have to live up to certain standards of education which will make good Canadian citizens out of their pupils. Such standards, of course, would be enforced in any schools established by the Japanese. Any teachers who wish to teach in the public schools must have certificates and we would not grant these certificates to Japanese women. We cannot stop them teaching in private schools, however."

## Complete Long Flight

Aviators Fly From Spain to Argentina

In 63 Hours Flying Time  
Buenos Aires.—Commander Ramon Franco and his comrades on the Spato-Argentina air flight swept over Buenos Aires, completing their trans-Atlantic flight from Palos, Spain, a distance of 6,332 miles, in 62 hours, 52 minutes, flying time.

The Spanish aviators made the short journey from Montevideo to the Argentine capital in 1 hour and 20 minutes. They received a welcome such as this city has seldom accorded. Thousands upon thousands of residents lined the waterfront, while other thousands from roof tops watched the great airplane soaring in.

Washington's Home Brought To U.S.  
Norfolk, Va.—The ancestral home of George Washington, that has stood for more than 300 years in England, has arrived here, packed in crates and so marked that it can be reconstructed at the birthplace of the first president of the United States.

Change Fair Date  
Toronto.—A resolution recommending that the 1927 provincial fair at Guelph be held in March instead of November as the custom for some years, was passed by the Ontario Swine Breeders' Association here.

## REGRETS ATTACK ON CANADA IN BRITISH PAPERS

Ottawa.—W. G. McQuarrie (Conservative, New Westminster), drew the attention of the government in the house to a cable report of a speech by Lieut-Governor Bruce, of British Columbia, in London, denouncing attacks on Canada and Canadian conditions in British papers. Mr. McQuarrie asked if the government intended to do anything regarding these reports.

Hon. Charles Stewart, acting minister of immigration, said that whatever reports appeared in the British press about Canada could not be much more damaging than some of the speeches in the Canadian House of Commons. It was doubtful if the Canadian Government would be wise to take any action in the matter of what the British press cared to publish.

## Not Willing To Submit Question to the League

Premier Mussolini, of Italy, is Still in Defiant Mood

Rome.—Italy refuses to accept any proposal to submit to the League of Nations the question of the treatment of the German-speaking population in the Upper Adige. Thus, Premier Mussolini declared in the senate in his answer to Dr. Gustav Stresemann, the German foreign minister, who in the Reichstag set forth Germany's side of the controversy with Italy over the former Austrian territory, which Italy now holds by virtue of the treaty of St. Germain.

The Italian premier's address was calm and restrained, in sharp contrast to his first speech on the same subject, covering point by point the utterances of the German foreign minister.

## B.C. Lumber Exports Heavier Last Year

Broke All Previous Records For Overseas Shipments

Victoria.—Making it way to the four corners of the globe, British Columbia lumber broke all previous records for overseas shipments last year, according to figures compiled by officials of the provincial forestry service. Total water-borne shipments of lumber from the province last year amounted to 577,560,288 feet compared to the former record of 531,262,313 feet established in 1924.

Farmers Commence Spring Work  
Calgary.—Farmers are beginning spring work in the vicinity of Calgary. Farmers near Calgary Junction have begun to harrow their summerfallow.

## FURNISHING THE HALLS OF MEMORY

Miss Catherine Irwin, of San Francisco, is the happy young lady shown here with Commander H. Sibbald, of the Canadian Pacific liner "Montreal," and her mother, Mrs. Harriet Irwin.

Miss Irwin sailed recently for the West Indies from New York, having won the trip with an essay on "Why I Want to Travel" in the San Francisco Chronicle's Cruise Contest.

One of the reasons Miss Irwin gave in her essay was that she wanted to travel for memory's sake. "When the inevitable night of years narrows my horizon," said the young lady, "and restricts my intercourse with the world; when friends and family scatter and I am thrown on my own resources, I want the halls of my memory to be so richly appointed with priceless pictures of charm and beauty that I shall always be good company for myself and may grow old gracefully."

Then, when I have called the Seven Seas, realizing always that one can get out of travel only what one puts in it, I shall turn happy feet homeward and seek my own desolate content."

## Transfers Activities To B.C.

Large English Mining Company Searching Mainly For Arsenic

Vancouver.—One of Cornwall's largest mining companies is transferring its activities to British Columbia in search of arsenic, lead and zinc ores. It was learned at the British Columbia chamber of mines.

Not only will it buy and operate properties, but it will bring experienced Cornish miners to the province to introduce a system of mining by which shafts and tunnels are bored, not blasted, as usual. E. J. Blair, advanced agent of the Devon Consolidated Mining Company.

"We have been influenced to come to British Columbia, principally because our arsenic ores in Britain are worked out," Mr. Blair said. "While we are looking for arsenic properties, we are equally attracted by lead and zinc mining possibilities."

## Interest In Emigration Revived

Steamship Report Long List of Applicants For Passage to Canada

London.—Revival of interest in emigration to Canada following the inauguration of the 413 rate of passage recently agreed upon between the British and Canadian governments is especially marked at Liverpool, Manchester, Glasgow, Southampton, Cardiff and Belfast, Canadian Pacific steamship services, who say that at these places there are long lists of applicants for steamship passage to Canada.

A marked feature of the new emigration scheme is the higher standard of the prospective migrants compared with the standard of would-be settlers in former days.

## Discovery Of New Ray

Fills Important Gap In Wave Lengths Says Professor

London.—The discovery of a new type of ray supposed to lie between the ultra violet and X-rays, is announced by C. E. Wynn Williams, of the University of North Wales, at Bangor. It is said the new rays penetrate the air for several inches, but are stopped by all solids, even by gold leaf, while X-rays can penetrate a half-inch of lead, and the recently discovered Millikan rays pass through six feet of lead.

There are two important gaps in the long scale of wave lengths, and the new ray, according to Professor Williams, fills one of them, namely, that between the X-ray and the violet.

## Fined For Not Voting

Sydney, Australia.—Two men were fined ten shillings and ordered to pay 48 shillings cost a first prosecution under the federal compulsory voting law.

## GOOD ROADS TO GREATLY BENEFIT PRAIRIE WEST

Victoria.—Hon. Sam Hill, United States millionaire leader of the international Good Roads Movement, announced on his arrival here from Seattle, that on Dominion Day, July 1, he will start on the first all-Canadian automobile trip from Vancouver to Winnipeg. This will be made possible by the completion within the next few months of the trans-Pacific highway which is now under construction by the British Columbia Government.

"The biggest thing at present in this country is Canadian highways, both for itself and what it symbolizes in opening up the country," Mr. Hill said. "With all sections of the country linked up through the completion of these last connecting links in the national chain, you won't be able to keep anything in. For spreading population through the country, one main highway is worth more than two railroads, as regards the actual number of persons that are brought in as visitors or settlers."

## Wheat Exports Via U. S. Ports Increased

Canada's Shipments to United Kingdom To Exceed 107,149,079 Bushels

Ottawa.—A total of 107,149,079 bushels of Canadian wheat was exported to the United Kingdom via United States ports during the six months ended January 31 last. The exports of Canadian wheat to the United Kingdom via Canadian ports during the same period totaled 28,515,158 bushels. The value of this wheat exported by the United States ports was \$147,591,724. The value of that exported via Canadian ports was \$42,315,440.

During the corresponding period a year ago, exports of Canadian wheat via the United States totaled 16,719,808 bushels with a valuation of \$75,561,060. That exported via Canadian ports was 24,557,001 bushels, valued at \$32,152,560.

## Britain's Farm Policy

Additional Grant For Agricultural Education and Research

London.—Ministry of Agriculture. Guinness has made public further particulars regarding the British Government's agricultural policy. The most important item of the programme, as announced is an additional grant of \$2,500,000 for agricultural education and research during the coming five years, of which amount it is proposed to spend about \$250,000 on foot and mouth disease research and \$600,000 on veterinary education and research. A new bureau is to be established by the ministry of agriculture to deal with marketing and co-operation. A marketing commissioner and assistants will be appointed. It is also proposed to establish new farm institutes for research work.

## Mexico Wants Juvenile Courts

President Has Been Petitioned to Issue a Decree

Mexico City.—Juvenile courts for Mexico are urged by the Society for the Prosecution of Children of this country.

The society has petitioned President Calles to issue a decree under the "extraordinary authority" given him by congress, for immediate creation of these courts. If the president thinks he has not the authority the society will submit a bill to the next session of congress.

## Alberta Fair

Edmonton.—At the final session of the annual convention of the Alberta Fair's convention here, V. R. Funder, of Camrose, was elected president and Hugh MacIntosh, of Macleod, vice-president. Directors selected from the north were G. R. Stewart, of Lacombe, while those from the southern districts will be R. Cates, of Oyen, and John Wilson, of Innisfail.

## Rumor Is Denied

London.—With reference to a rumor that Lord Zetland would be the next governor-general of Canada, in succession to Lord Bynoe, the Canadian Press is authoritatively informed that the rumor is groundless.

**DR. R. M. OATWAY**

#### What Next?

You don't have to go to a circus  
to see Siamese twins—You can  
find them in autos parked along  
country roads, in picture shows,  
restaurants, etc. etc.

The motor car is surely replac-  
ing the horse. Was down eating at  
a Cafe and found a piece of rubber  
tire in a fried sausage.

Wednesday and Saturday.  
1:05 a. m., everyday, stops on  
flag only.

#### In Loving Memory

Of Fred Taylor, who passed a-  
way on February 15th, 1925.  
One year has passed, our hearts  
still sore.

As time flows on we miss you more,  
Friends may think the wound is  
healed,

But they little know the sorrow  
That lies within our hearts concealed.  
Dear wife and children, I leave  
you for a while.

In this land of prohibition, to  
labour and toil,  
How soon you may follow, no  
mortal can tell.

Prepare then for heaven and all  
will be well.

From His Loving Wife and  
Children.

#### ENJOYING HIS FIRST COON COAT

**L**ORD WILLINGTON, promi-  
nent British statesman, who has  
been mentioned as a possible  
successor to Lord Byng as Gov-  
ernor-General of Canada, is now in  
the Dominion on his way to China  
on a mission for the British For-  
eign Office in connection with the  
Boxer indemnity. Lord Willington  
is seen here in a coon coat which he  
secured in Montreal and which he  
is thoroughly enjoying during his  
trip across Canada by Canadian  
National Railways in company  
with Lady Willington.  
During their visit to the Domini-  
on, Lord and Lady Willington are  
being entertained by the Governor-  
General and the Lieutenant-Gov-  
ernors of Ontario and Manitoba,  
spending a day in Winnipeg, and a  
short time in Vancouver and Vic-

torias before sailing for the Orient.  
They are accompanied on this rail  
journey by Mr. C. K. Howard, Cana-  
dian National general tourist  
agent.  
Lord Willington, who is Lord-in-  
Waiting to His Majesty King  
George, and whose home is at Hast-  
ings, England, has been Governor  
of Bombay and Madras. He was  
largely responsible for the return  
of the escheatrons of the City of  
Quebec from the City of Haiti ago.  
This escheatrons, which was re-  
moved at the time of the British  
conquest of Canada, was held until  
last fall by Hastings, when  
through the efforts of Lord Wil-  
lington and Hon. P. C. Larkin,  
Canadian High Commissioner in  
London, it was returned to Quebec.

#### Lady Byng Inspired by Rockies

Lord Byng gazing on the famous  
head course

Her Excellency, Lady Byng

"No one has any right to speak with  
authority of Canada who has  
seen only the East or the West."

It was Her Excellency the Lady  
Byng of Vimy who made this state-  
ment recently at a luncheon of the  
Ottawa Women's Canadian Club  
shortly after her return from a trip  
across and through Canada over a  
matter of some eighty thousand  
miles. Accompanying Her Excellency  
the Governor General, Lady Byng  
had visited practically all parts of  
Canada meeting at every stopping  
place the warm welcome Canadians  
everywhere reserve for "Byng of  
Vimy" and his charming Lady and,  
not less important, becoming ac-  
quainted with Canada's unrivalled  
and never-ending succession of scenic  
scenery.

"I feel I have some plan to come to  
speak to you on Canada," said Her  
Excellency. "It came as a sort of ad-  
vertising agent to beg of you that  
you go west and visit here. I know  
the terrible question of expense but

let me tell you, it is well worth it.  
I do so regret that people will go to  
the South of France or some seaside  
resort, rather than view the beauties  
of their own Canadian Rockies and of  
Vancouver Island."

Lady Byng described her first view  
of the Rockies. "It was so great an  
inspiration. I cannot convey the  
beauty and wonder of that undulating  
line rising out of the mist; that end-  
less, unending chain of marvellous  
mountains and the valleys below in  
colours of aquamarine and emer-  
ald."

The opinion of Her Excellency  
regarding Western Canada is not that  
of a mere passerby. With the Gov-  
ernor-General she has been all over  
the country, going by motor where  
the rail and river do not penetrate.

"There are those," said Lady Byng,  
"who visit Canada landing at Quebec,  
coming on to Montreal, proceeding to  
Ottawa, and Toronto, who have gone  
away giving their view on Canada.  
Such views are always defective even  
if sometimes they are not wholly  
false and untrue. Canada's bigness  
is evident on the map, but its actual  
size is only realized through direct  
contact and personal acquaintance."

The idea of interchanging visits  
east and west is developing the  
attitude so admirably taken by the  
wife of the Governor-General should  
speed the movement and give it  
wider impetus.

In our Dominion, different localities  
have different interests and problems,  
and nothing but a close and sym-

pathetic study of cause and effect will  
solve the difficulties which confront  
the country as a whole. Books and  
newspapers assist somewhat in bring-  
ing into closer touch the eastern,  
central and western regions of the  
Dominion. But not until the people  
living east visit the west and the  
people in the west visit the other  
provinces — visit them with the  
intention of becoming acquainted  
with the life and ideals of the native  
born, will any degree of intimacy or  
understanding be reached.

The lesson of Lady Byng's speech,  
then, is for Canadians, when they go  
travelling on holiday, to extend their  
knowledge of the structure and  
economic life of the people in other  
parts of the country than their own  
and to see for themselves the beauty  
of Canadian scenery which travellers  
from other lands say is unequalled  
world over and of which every  
province has its full share — see  
Canada first, and see it from Halifax  
to Victoria.

## DAREE, SON OF KAZAN

James Oliver Curwood  
A LOVE EPIC OF THE FAR NORTH  
Copyright, 1917, by Doubleday, Page & Co.  
"DAREE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog  
An Adaptation of This Story

## SYNOPSIS

What But McGargat, the Factor, intended, had come about. Baree, the dog, his old enemy, following the Factor's trap-line, and stripping him of food, had walked straight into a "nest" that had been laid for him, and was a prisoner. McGargat found him there and gloated over his misery. Baree snarled back but was helpless. And then came along a human stranger. "You poor devil," he said sympathetically, to Baree. "An outlaw! Well, they haven't played you a very square game!"

## CHAPTER XXVII.—Continued.

He rose and faced McGargat. "I had to set a lot of traps like that," the Factor apologized, his face reddening slightly under the steady gaze of the stranger's blue eyes. Suddenly his anxious face. "And he's going to die there, inch by inch. I'm going to let him starve, and rot in the traps, to pay for all he's done." He picked up his gun, and added, with his eyes on the stranger and his finger ready as the trigger, "I'm Bush McGargat, the Factor at Lac Hain. Are you bound that way, M'sieu?"

"A few miles. I'm bound up country—beyond the Barrens." McGargat felt again the strange thrill.

"Government!" he asked. The stranger nodded. "The—Police, perhaps?" persisted McGargat.

"Why, yes—of course—the Police," said the stranger, looking straight into the Factor's eyes. "And now M'sieu, as a very great courtesy to the law I'm going to ask you to send a bullet through that beast's head before we go on. Will you? Or shall I?"

"It's the law of the line," said McGargat, "to let a trap robber rot in the traps. And that beast was a devil. Listen—"

## THIS MOTHER GLAD DAUGHTER IS WELL

Mrs. Parks Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health

Toronto, Ontario. "My daughter is 16 now and has been an invalid ever since she was six months old and has been compelled to remain out of school the greater part of the time. We have tried different kinds of medicine, but none helped her much. I had taken Lydia E. Pinkham's Vegetable Compound when I was run-down, and it had helped me so much that I thought it might help her at this time. She has gained ever since she began taking it. She attends school every day now and goes skating, and does other outdoor sports. I recommend this medicine to any one who is run-down and nervous and has troubles."—Mrs. Parks, 106 Bond Street, Toronto, Ontario.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for young women's troubles. For sale by druggists everywhere. Q

W. N. U. 1618

## Must Hold Command Of Seas

Great Britain Has to Protect Trade In Order to Feed Her Population  
It is still necessary for Great Britain to hold command of the seas in order to feed her population. W. C. Bridgman, first lord of the admiralty, declared in addressing the members of the Constitutional Club at London. The declaration of the Washington conference, in regard to the dimensions of the world's principal navies have been faithfully observed by England and the other countries involved, he said, but England is not in exactly the same position as other countries. "She is no longer an island power. Mr. Bridgman continued, and she must protect her enormous expanse of empire trade on which she depends for her very existence."

## How He Discovered Best Constipation Relief

Mr. Joseph P. Glus of Brooklyn, N. Y., writes: "In the past 20 years I have been constantly troubled with constipation. Every remedy I tried would give me a while, but soon failed. The only remedy I have been able to use steadily with good results have been Carter's Little Liver Pills. I don't guess when I take them—I know I'm going to feel relieved." It is all druggists.

Shake, old man. We're in the same boat, an' I'm glad to meet you!"

## CHAPTER XXVIII.

Jim Carvel held out his hand, and the snarl that was in Baree's throat died away. The man rose to his feet. He stood there, looking in the direction taken by Bush McGargat, and checked in a curious, exultant sort of way. "There was friendliness even in that chuckle. There was friendliness in his eyes and in the shine of his teeth as he looked again at Baree. About him there was something that seemed to make the gray day brighter, that seemed to warm the chill air—a strange something that radiated cheer and hope and comradeship just as a hot stove sends out the glow of heat. Baree felt it. For the first time since the two men had come, his trap-rover body lost its tenseness; his back sagged; his teeth clicked as he shivered in his agony. To this man he betrayed his weakness. In his bloodshot eyes there was a hungering look as he watched Carvel—the self-confessed outlaw. And Jim Carvel again held out his hand—much nearer this time.

"You poor devil," he said, the smile going out of his face. "You poor devil!"

The words were like a caress to Baree—the first he had known since the loss of Nepeese and Pierrot. He dropped his head until his jaw lay flat in the snow. Carvel could see the blood dripping slowly from it. "You poor devil!" he repeated.

There was no fear in the way he put forth his hand. It was the confidence of a great sincerity and a great compassion. It touched Baree's head and patted it in a brotherly fashion, and then—slowly and with a bit more caution—it went to the trap fastened to Baree's forepaw. In his half-crazed brain Baree was fighting to understand things, and the truth came finally when he felt the steel jaws of the trap open and drew forth his maimed foot. He did then what he had done to no other creature but Nepeese. Just once his hot tongue shot out and licked Carvel's hand. The man laughed. With his powerful hands he opened the other traps, and Baree was free.

For a few moments he lay without moving, his eyes fixed on the man. Carvel had seated himself on the snow.

## RED PIMPLES ALL OVER FACE

Also on Shoulders. Lost a Lot of Sleep. Cuticura Healed.

"Pimples started breaking out all over my face and shoulders. They were hard and red and I lost a lot of sleep on account of the irritation. The pimples on my face cleared over and my face was all disfigured."

"I used a lot of different remedies without success. I began using Cuticura Soap and Ointment and they afforded relief in about one month. I continued the treatment and in about three months it was completely healed." (Signed) Anna Marie Rose Peters, Box 22, Tourville, L'Islet Co., Que.

Keep your skin clear and your pores active by daily use of Cuticura Soap. Heal irritations and rashes with Cuticura Ointment.

covered end of a birch log and was biting his pipe. He watched him light it; he noted with new interest the first purplish cloud of smoke that left Carvel's mouth. The man was not more than the length of two trap-chains away—and he grinned at Baree.

"Screw up your nerve, old chap," he encouraged. "No bones broke. Just a little stiff. Maybe we'd better get out."

He turned his face in the direction of Lac Hain. The suspicion was in his mind that McGargat might turn back. Perhaps that same suspicion was impressed upon Baree, for when Carvel looked at him again he was on his feet, staggering a bit as he gained his equilibrium. In another moment the outlaw had swung the pack-sack from his shoulders and was opening it. He thrust in his hand and drew out a chunk of raw red meat.

"Killed it this morning," he explained to Baree. "Yearling bull, tender as partridge—and that's as fine a sweetbread as ever came out from under a backbone. Try it!" He tossed the meat to Baree. There was no equivocation in the manner of its acceptance. Baree was famished—and the meat was flung to him by a friend. He buried his teeth in it. His jaws crunched it. New blood leaped into his blood as he feasted, but not for an instant did his reddened eyes leave the other's face. Carvel replaced his pack. He rose to his feet, took up his rifle, slipped on his snowshoes, and fronted the north. "Come on, now," he said. "We've got to travel."

It was a matter-of-fact invitation, as though the two had been travelling companions for a long time. It was, perhaps, not only an invitation but partly a command. It counted Baree. For a full half-minute he stood motionless in his tracks gazing at Carvel as he strode into the north. A sudden convulsive twitching shot through Baree; he swung his head toward Lac Hain; he looked again at Carvel, and a white that was scarcely more than a breath came out of his throat. The man was just about to disappear into the thick spruce. He paused—and looked back.

"Coming, Boy?"

(To be continued)

The Many-Purpose Oil—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and neuralgia, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind, and are equally amenable to the healing influences of this fine old remedy which has made thousands of firm friends during the past fifty years.

## Little Helps For This Week

The Lord grant joy that ye may and rest—luth, 1, 9.

Not in the changing sky, The stormy sea, Yet somewhere in God's wide world Rest there must be Within the Savior's heart Place all thy care. And learn, O weary soul, Thy rest is there.

—A. Adelaide Ann Procter. There is a power in this rest in God of which the men who are rushing along the broad and dusty highway can form no conception. The meadows on which the soul refreshes itself are ever green.—Thoburn.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

## Recognized

He: "Awfully jolly concert wasn't it? Awfully jolly thing by that fellow—what's his name? Something like Doornob?"

She: "Doornob! Whom do you mean? I only know of Beethoven, Mozart, Wagner, Handel."

He: "That's it! Handel. I knew it was something you caught hold of!"

Minard's Liniment relieves headache

First Bum—"Mighty fine coffee they give you at this mission."

Second Bum—"Yes; but it keeps me awake during the sermon."

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Young Sallics—"Auntie, they made me draft clerk at the bank today."

Auntie—"Oh, that's nice—what do you do? Open and shut the door?"

Minard's Liniment for Grippe

## For Sore Throat

Invites World to Congress  
Canada has officially invited the British dominions and colonies and all foreign powers to attend the world's poultry congress, which will be held July 27 to August 4, 1917.

## KEEP LITTLE ONES WELL IN WINTER

By Regulating the Stomach and Bowels With Baby's Own Tablets

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and through their use the baby will be able to get over the winter season in perfect safety.

In using Baby's Own Tablets the mother has an absolute guarantee that she is giving her newborn babe as fine something that is absolutely safe and something that cannot possibly do harm to even the youngest of infants or other dangerous drug. They are sold by most druggists or at a special box, by mail from The Dr. Williams' Medicine Co., Brockville, Ont.

### Stony Plain and District.

A good-moving picture, Dante's Inferno, was presented in Duchoffe's hall last Monday evening and proved to be up to all advance notices. The next picture will be shown on Monday, March 1, with "The Fool" as feature.

Tuesday seemed to be a record day for spills, no less than three cars doing the loop-the-loop stunt into the ditch, locally. The unfortunate drivers were S. B. Lucas, Wab., A. Willis and H. Goetz. No serious injuries were reported—except to the cars.

The Stony Plain branch of the W. I. met at the home of Mrs. Jas. Smith on Wednesday last. After the business was completed, Mrs. Gates gave a short address followed by current events by Miss Ashcroft. Mrs. S. C. Elliot favored with a humorous reading which was enjoyed by all. Tea was then served by the hostess, Mrs. Elliot and Mrs. Smith. The meeting then adjourned.

The Stony Plain Rifle Club is holding a Smoking Concert this evening in Duchoffe's hall. All members are requested to attend and to bring any friends interested.

The Provincial Dept. of Agriculture will hold a short course in Agriculture in Stony on Friday and Saturday, March 12 and 13. Everybody is welcome, so make it a point to attend.

A key very mysteriously had made its disappearance from the Spruce Grove hotel but it has been recovered since.

McKenna's Auction Sale on Monday drew a large crowd of bidders and everything went at a good price.

### Obituary.

The death of Mrs. William Paul occurred on Friday, Feb. 19th at her home in the Holborn district, following an illness which lingered for a long period of time. The deceased leaves to mourn her loss a husband and nine children, seven of which are living at home. The body was taken into Edmonton on Saturday and was interred in an Edmonton cemetery on Tuesday afternoon, surrounded by near relatives and friends and the entire family.

### FARM FOR SALE

1-2 section of land in the Rosenthal district, SE qtr Sec 16 and SW quarter sec 15, Tp 52. For information see N. M. Carmichael, Stony Plain. Phone 1611.

### Cheap Farm For Sale.

 2—J. Getzinger's Auction Sale at Spruce Grove.  
 17—Masquerade dance in Stony.

### SPORTING NOTES.

#### Stony Plain Hockey Team Play 1-1 Tie at Fort.

Stony's team of puckchewers paid a visit to Fort Saskatchewan last Friday evening and engaged the team there, the outcome after a hard-fought encounter being a 1-1 draw. The game was exceedingly fast and clean with the first two periods scoreless.

In the third period Chesser got a goal for Stony and everything appeared over but the celebrating, but Dame Lack which was against the locals all night thought differently and the puck was accidentally knocked in Stony's goal for the tying counter. No over-time was played. Stony had the best of the play, but only tough luck in shooting lost for them the verdict, which they justly deserved.

#### Stony's Line up.

Goal—Laird. Defense—Ulmer and Miller. Fwd—Chesser, Zuehl, Heichen, Umbach, Alt.

Two Edmonton Curling Rinks, one skipped by Chief of Police Shute, came out to Stony over the week end and succeeded in rapping 3 of the 4 games played with local teams.

Stony's Junior hockey team played the Concordia Juniors in the City last Saturday, the result being a 1-1 tie.

The Calahoo hockey team failed to appear on the 14th and the large crowd of fans which turned out were badly disappointed.

#### Stony May Lose Govt Seat.

From a report by a special committee appointed for the redistribution of ridings in the province for the coming election, Stony Plain and Pincher Creek may lose their representatives. This report will be up before the House this session to be arranged and as yet there has been no definite statement as what will be done. Five seats are to be eliminated and the boundaries of all ridings will probably be altered.

### Here and There

H. B. Beaumont, assistant steamship general passenger agent, has been appointed assistant to the steamship passenger traffic manager of the Canadian Pacific Steamships, according to recent advice at the head offices of the company.

Canada's agricultural growth during the past quarter of a century, as well illustrated by figures compiled by the Dominion Government, which show that during the past year field crops had an estimated value of \$246,166,000, as compared with \$186,673,000 in 1900.

Production on Nova Scotia farms in 1925 amounted to approximately \$40,420,000, as compared with \$35,425,000 in the previous year. Items making up this total were: Dairy, \$10,200,000; livestock, \$2,200,000; field crops, \$18,700,000; poultry products, \$1,250,000; fruits and vegetables, \$8,000,000.

A railway car, originally built as an observation car for the Canadian Pacific Railway, was used as a "chapel ardente" and funeral coach to transport the remains of the late Queen Mother of Italy. This car was used in hospital service during the war and was sold, with others, to the Italian State Railways after the armistice.

Strange scenes are laid in the Canadian west on account of hoarfrost and snow. The trees and shrubs are covered with snow forming strange white animals in the Kicking Horse Pass region. A number of photographs were taken recently in this neighborhood showing grotesque and terrifying figures in the form of prehistoric animals.

Her Excellency, Lady Byng, wife of the Governor-General of Canada, speaking at Ottawa recently, gave a vivid description of the scenic beauties of the Canadian Pacific Rockies. She advised Canadians to visit Canada first and get to know this country and something of the lives of the people who live in its various parts.

Owing to the cheap hydro-electric power available, the American Cellulose and Chemical Company is to locate at Drummondville, Quebec, very shortly. The Canadian company will be known as the Canadian Cellulose and Chemical Company. It is understood, and the output will consist of rayon and artificial silk. About \$7,000,000 will be used for buildings and plant equipment.

One hundred all-steel 75-ton ore cars ordered by the Canadian Pacific Railway from the Canadian Car and Foundry Company, have now been completed and are ready for delivery. Each of the cars has a capacity of about eighty tons in a holding content of 1,200 cubic feet, and the wheels are of solid wrought steel. The cars will be largely used in the Sudbury district.

At least 600 boys will pass through the Burnside Lodge, the Western Ontario distribution centre in Woodstock, Ontario, to become farm workers under the Salvation Army juvenile farm labor system during 1926, according to Adjutant Lee, chief of the lodge. Adjutant Lee also stated that the first party, numbering fifty, have all been spoken for, although they are still on their way from England.

Cases of automobiles driven directly at trains in the course of traversing a level crossing during the first four weeks of 1926 were increased to four, or at the rate of one a week when an auto truck struck the leading car of seventeen cars passing over the Yonge Street crossing at Toronto. The third prize for carelessness went to an autobus driver at Hull, Quebec, who drove his car through both gates of the Chelsea Road level crossing in the west end of this city.
